

BOTSWANA BUREAU OF STANDARDS

PRESS RELEASE

Single Electronic Window

Please be informed that Botswana Unified Revenue Service (BURS) is in the process of migrating from ASYCUDA to the new Customs Management System for all its clearance processes. This process introduces **Single Electronic Window (SEW)** which allows for paperless submission of applications for permits, licenses and certificates for import or export purposes by traders.

SEW launch has been postponed to **1st September 2021** from which all importers of BOBS regulated products will be expected to use the platform for application of compliance documents for their products. For trade facilitation, BOBS invites all traders who have not been trained on how to use the system, to register for training as soon as possible.

For the registrations or any enquiries contact Mr. Beni on 364 5531 or beni@bobstandards.bw or Mr Bantsi at 3645585 and/or bantsi@bobstandards.bw respectively.
